JOINT RESEARCH WORKSHOP ON **CYBERSECURITY & AI**

DAY 1 / THURSDAY, NOVEMBER 5, 2026

Malware, Cyber Threats and Cybercriminology

09:00–09:30	**Registration & Poster Set-up**	
09:30–09:50	**Opening Ceremony & Group Photo** Prof. Yeali Sun (Distinguished Professor, National Taiwan University; Former Commissioner of National Communication Commission)	
SESSION 1 | Cybersecurity Landscape (Room: N106 & N107)		**Chair: Jean-Yves Marion**
09:50–10:10	Darksurfer: A Tool for Cybercrime Research and Analysis	**Jean-Yves Marion** Professor · Univ. de Lorraine / LORIA
10:10–10:30	Co-evolving Red-team and Blue-team AI Agents	**Ying-Dar Lin** Lifetime Chair Professor · NYCU
10:30–10:50	Reverse Engineering Human & Machine Intelligence	**Simone Aonzo** Professor · EURECOM
10:50–11:10	**Tea Break**	
SESSION 2 | Malware & Threat Detection (Room: N106 & N107)		**Chair: Ying-Dar Lin**
11:10–11:30	Explainable Backdoor Detection and Mitigation in Vertical Federated Learning	**Ruei-Hau Hsu** Associate Professor · NSYSU
11:30–11:50	Robust Code-Reuse Attack Synthesis for Arbitrary Exploitation Primitives	**Nicolas Bailluet** Postdoctoral Researcher · Univ. de Lorraine / LORIA
11:50–12:10	Language Model-Based Malicious Threat Analysis for Industrial Control Networks	**Peter Shaojui Wang** Assistant Professor · NTUST
12:10–13:40	**Lunch & Student Poster Session (Presenters at posters: 13:00–13:30)**	
SESSION 3 | Emerging Threats & Defenses (Room: N106 & N107)		**Chair: Meng Chang Chen**
13:40–14:00	Cybersecurity Research at the University of Lorraine: From Malware Analysis to Cybercrime Ecosystems and AI	**Maira Nassau** Project Manager · Univ. de Lorraine / LORIA
14:00–14:20	From Generation to Detection: Security Challenges in AI-Generated Images and Videos	**Jun-Cheng Chen** Associate Research Fellow · Academia Sinica / CITI
14:20–14:40	Towards Trustworthy Biometrics: Detection of AI-Generated Forgeries across Fingerprint, Face, and Retinal Biometrics	**Mao-Hsiu Hsu** Associate Professor · NFU
14:40–15:00	Binomics: Building a Reproducible Infrastructure for Malware Sequencing and Analysis	**Victor Royer** PhD Student · Univ. de Lorraine / LORIA
15:00–15:20	Formal Methods for Reliable Quantum Programs	**Jyun-Ao Lin** Assistant Professor · NTUT
10:50–11:10	**Tea Break**	
SESSION 4 | AI-Driven Cybersecurity (Room: N106 & N107)		**Chair: Yi-Ting Huang**
15:40–16:00	Inside an LLM Vulnerability-Discovery Harness: Experience on O-RAN and the Limits of Automated Verification	**Shin-Ming Cheng** Professor · NTUST
16:00–16:20	A Hybrid Architecture for Offensive Security AI Agents	**Léo Bertrand** Postdoctoral Researcher · Univ. de Lorraine / LORIA
16:20–16:40	Attention-Enhanced Graph Representation Learning for Malware Behavioral Analytics	**Shun-Wen Hsiao** Associate Professor · NCCU
16:40–17:00	When AI Confuses Syntax with Semantics: Functional Adversarial Examples Against Binary Similarity Models	**Victor Matrat** PhD Student · Univ. de Lorraine / LORIA
17:00–17:20	Advancing Threat Detection Through Attack Data Generation	**Yi-Ting Huang** Associate Professor · NTUST
17:20–17:30	**Closing Remarks**	
19:00–21:30	**Banquet @ Shin Yeh Taiwanese Cuisine Xinyi A9 Restaurant**	

TAIWAN × FRANCE

JOINT RESEARCH WORKSHOP ON **CYBERSECURITY & AI**

DAY 2 / Friday, NOVEMBER 6, 2026

AI Security / Cybersecurity / Hardware and Chips

09:00–09:30	**Registration & Poster Set-up**	
09:30–09:50	**Opening Ceremony for Security & AI Workshop & Group Photo** Hong-Yuan Mark Liao (Director, Institute of Information Science, Academia Sinica) Josué Serres (Head of cooperation, French Office in Taipei)	
Joint Session | AI Security (Room: N106 & N107)		**Chair: Hsu-Chun Hsiao, Chia-Hui Chang**
09:50–10:05	From Apps to Agents: Rethinking software development in the agentic era	**Chia-Hui Chang** Professor · NCU
10:05–10:20	Anomaly Testing for Dynamic Graphs with Aggregation and Multi-Layer Poisson Stochastic Block Model: Application to OT Cyber-security	**Christophe Biernacki** Senior Researcher · Inria
10:20–10:35	France–Taiwan Cybersecurity Research Collaboration: Milestones and Perspectives Cybersecurity national initiative(PEPR)	**Jean-Yves Marion** Professor · Univ. de Lorraine / LORIA **Sébastien Bardin** Senior Researcher · CEA
10:35–10:50	(TBA)	**Ming-Hung Wang** Director · NICS
10:50–11:00	France-Taiwan Cooperation in Science and Technology : Tools & Programs	**Cédric Guillerme** Attaché for science and technology · Bureau Français de Taipei
11:00–11:15	**Tea Break**	
SESSION 1 | AI Security (Room: N106 & N107)		**Chair: Arijit Karati**
11:15–11:35	Why Bother with Small and Open Language Models	**Laurent Prévot** Professor · AMU
11:35–11:55	Influence-Guided Concolic Testing on Neural Networks	**Fang Yu** Associate Professor · NCCU
11:55–13:25	**Lunch & TACC Research Poster Session (Presenters at posters: 12:55–13:25)**	
SESSION 2 | Wireless Security (Room: N106 & N107)		**Chair: Yu-Sung Wu**
13:25–13:45	Wireless Device Authentication Using RF Fingerprinting in a Zero Trust Framework	**Hsin-Chin Liu** Professor · NTUST
13:45–14:05	Hardware/Software Evaluation of Cryptographic Implementations: Do It With BINSEC!	**Sébastien Bardin** Senior Researcher · CEA
14:05–14:25	SigGuard: Adversarial Attack Defense and Mitigation System on Satellite Wireless Communication	**Tsung-Tai Yeh** Associate Professor · NYCU
SESSION 3 | Regulation, Disinformation & Human Aspects (Room: N106 & N107)		**Chair: Raymund Lin**
14:25–14:45	Sycophancy in Large Language Models: Measuring the Influence of Social Framing	**Elouan Vuichard** Research Engineer · CNRS
14:45–15:05	From Semiconductors to AI Systems: Cybersecurity Regulation and Trusted Supply Chains in Europe and Taiwan	**Karine Bannelier** Associate Professor · UGA
15:05–15:25	No Compliance with EU Regulations? No EU Market Access!	**Afonso Ferreira** Research Director · CNRS
15:25–15:40	**Tea Break**	
SESSION 4 | Hardware & Chip Security (Room: N106 & N107)		**Chair: Shih-Wei Li**
15:40–16:00	Physically Unclonable Function (PUF) IP Design for Hardware Security Applications	**Hsin-Shu Chen** Professor · NTU
16:00–16:20	Electronic chips supply chain security	**Sylvain Guilley** Co-founder & CTO · Secure-IC
16:20–16:40	Time Travelling within the MicroArchitecture of a CPU	**Paolo Maistri** Full-time Researcher · UGA
16:40–17:00	Exploiting Advanced Silicon Technologies for Randomness and Hardware Security	**Florian Pébay-Peyroula** Research Director & CTO · CEA
17:00–17:20	AI-driven secure circuit reduction and proof generations	**Thomas Espitau** CTO · PQShield
17:20–17:30	**Closing Ceremony**	
19:00–21:30	**Farewell Party @ The Place Taipei**

11:00–11:15	**Tea Break**	
SESSION 1 | Data, Representation & Reasoning (Room: N101)		**Chair: Pau-Choo Chung**
11:15–11:35	Semantic Dissimplicity Measures and Compact Visual Representations Founded on Artificial Intelligence	**Abdourrahmane Atto** Professor · USMB
11:35–11:55	AI and Graphs: Optimizations, Security, and Ownership Verification	**Chih-Ya Shen** Professor · NTHU
11:55–12:15	Learning to Model: Constraint Acquisition via Queries and Symbolic–Connectionist Hybridization	**Nadjib Lazaar** Professor · Université Paris-Saclay
12:15–13:30	**Lunch & TACC Research Poster Session (Presenters at posters: 12:55–13:30)**	
SESSION 2 | Learning, Generative, Multimodal & Human-Centered AI (Room: N101)		**Chair: Ching-Chun Huang**
13:30–13:50	AI in Human-Centered Robotics (Online Talk)	**Serena Ivaldi** Senior Researcher · Inria
13:50–14:10	Towards Geometry- and Physics-Grounded Generative Multimedia AI	**Ching-Chun Huang** Professor · NYCU
14:10–14:30	Grounding Multimodal Models: From Visual Reasoning to World Modeling	**Syrielle Montariol** Researcher · CNRS
SESSION 3 | AI for Science (Room: N101)		**Chair: Christophe Biernacki**
14:30–14:50	Citizen Science & Machine Learning for Plant Identification: Challenges from Pl@ntNet (Online Talk)	**Joseph Salmon** Senior Researcher · Inria
14:50–15:10	AI for Scientific Discovery: The Case of Materials Science (Online Talk)	**Mathieu d'Aquin** Professor · Université de Lorraine
15:25–15:40	**Tea Break**	
SESSION 4 | Applied AI & Intelligent Systems (Room: N101)		**Chair: Chia-Hui Chang**
15:40–16:00	Robot Learning Beyond Imitation	**Tsung-Wei Ke** Assistant Professor · NTU
16:00–16:15	Electrophysiology for Health: Innovations & Applications (Online Talk)	**Marie-Constance Corsi** Researcher · Inria
16:15–16:35	NLP for Media: The Experience of a Joint Laboratory with the Newspaper Ouest-France (Online Talk)	**Guillaume Gravier** Senior Researcher · CNRS
16:35–16:55	Humanoid and Agricultural Robotics with AI	**Grégoire Passault** Associate Professor · University of Bordeaux
16:55–17:15	Toward AI-Powered Neurotechnology	**Chun-Shu Wei** Associate Professor · NYCU
17:15–17:35	From Vision-Language-Action Policies to Embodied World Models	**Chun-Yi Lee** Professor · NTU
17:20–17:30	**Closing Ceremony**	
19:00–21:30	**Farewell Party @ The Place Taipei**
