# TAIWAN × FRANCE

JOINT RESEARCH WORKSHOP ON **CYBERSECURITY & AI**

## DAY 1 / THURSDAY, NOVEMBER 5, 2026

Malware, Cyber Threats and Cybercriminology

| | | |
|---|---|---|
| **09:00–09:30** | **Registration & Poster Set-up** | |
| **09:30–09:50** | **Opening Ceremony & Group Photo**<br>Prof. Yeali Sun (Distinguished Professor, National Taiwan University; Former Commissioner of National Communications Commission) | |
| **SESSION 1 \| Cybersecurity Landscape (Room: N106 & N107)** | | **Chair: Jean-Yves Marion** |
| **09:50–10:10** | Darksurfer: A Tool for Cybercrime Research and Analysis | **Jean-Yves Marion**<br>Professor · Univ. de Lorraine / LORIA |
| **10:10–10:30** | Co-evolving Red-team and Blue-team AI Agents | **Ying-Dar Lin**<br>Lifetime Chair Professor · NYCU |
| **10:30–10:50** | Reverse Engineering Human & Machine Intelligence | **Simone Aonzo**<br>Professor · EURECOM |
| **10:50–11:10** | **Tea Break** | |
| **SESSION 2 \| Malware & Threat Detection (Room: N106 & N107)** | | **Chair: Ying-Dar Lin** |
| **11:10–11:30** | Explainable Backdoor Detection and Mitigation in Vertical Federated Learning | **Ruei-Hau Hsu**<br>Associate Professor · NSYSU |
| **11:30–11:50** | Robust Code-Reuse Attack Synthesis for Arbitrary Exploitation Primitives | **Nicolas Bailluet**<br>Postdoctoral Researcher · Univ. de Lorraine / LORIA |
| **11:50–12:10** | Language Model-Based Malicious Threat Analysis for Industrial Control Networks | **Peter Shaojui Wang**<br>Assistant Professor · NTUST |
| **12:10–13:40** | **Lunch & Student Poster Session (Presenters at posters: 13:00–13:30)** | |
| **SESSION 3 \| Emerging Threats & Defenses (Room: N106 & N107)** | | **Chair: Meng Chang Chen** |
| **13:40–14:00** | Cybersecurity Research at the University of Lorraine: From Malware Analysis to Cybercrime Ecosystems and AI | **Maira Nassau**<br>Project Manager · Univ. de Lorraine / LORIA |
| **14:00–14:20** | From Generation to Detection: Security Challenges in AI-Generated Images and Videos | **Jun-Cheng Chen**<br>Associate Research Fellow · Academia Sinica / CITI |
| **14:20–14:40** | Towards Trustworthy Biometrics: Detection of AI-Generated Forgeries across Fingerprint, Face, and Retinal Biometrics | **Mao-Hsiu Hsu**<br>Associate Professor · NFU |
| **14:40–15:00** | Binomics: Building a Reproducible Infrastructure for Malware Sequencing and Analysis | **Victor Royer**<br>PhD Student · Univ. de Lorraine / LORIA |
| **15:00–15:20** | Formal Methods for Reliable Quantum Programs | **Jyun-Ao Lin**<br>Assistant Professor · NTUT |
| **15:20–15:40** | **Tea Break** | |
| **SESSION 4 \| AI-Driven Cybersecurity (Room: N106 & N107)** | | **Chair: Yi-Ting Huang** |
| **15:40–16:00** | Inside an LLM Vulnerability-Discovery Harness: Experience on O-RAN and the Limits of Automated Verification | **Shin-Ming Cheng**<br>Professor · NTUST |
| **16:00–16:20** | A Hybrid Architecture for Offensive Security AI Agents | **Léo Bertrand**<br>Postdoctoral Researcher · Univ. de Lorraine / LORIA |
| **16:20–16:40** | Attention-Enhanced Graph Representation Learning for Malware Behavioral Analytics | **Shun-Wen Hsiao**<br>Associate Professor · NCCU |
| **16:40–17:00** | When AI Confuses Syntax with Semantics: Functional Adversarial Examples Against Binary Similarity Models | **Victor Matrat**<br>PhD Student · Univ. de Lorraine / LORIA |
| **17:00–17:20** | Advancing Threat Detection Through Attack Data Generation | **Yi-Ting Huang**<br>Associate Professor · NTUST |
| **17:20–17:30** | **Closing Remarks** | |
| **19:00–21:30** | **Banquet @ Shin Yeh Taiwanese Cuisine Xinyi A9 Restaurant** | |

# TAIWAN × FRANCE

JOINT RESEARCH WORKSHOP ON **CYBERSECURITY & AI**

## DAY 2 / FRIDAY, NOVEMBER 6, 2026

AI Security / Cybersecurity / Hardware and Chips

| | | |
|---|---|---|
| **09:00–09:30** | **Registration & Poster Set-up** | |
| **09:30–09:50** | **Opening Ceremony for Security & AI Workshop & Group Photo**<br>Hong-Yuan Mark Liao (Director, Institute of Information Science, Academia Sinica)<br>Josué Serres (Head of Cooperation, French Office in Taipei) | |
| **JOINT SESSION \| AI Security (Room: N106 & N107)** | | **Chair: Hsu-Chun Hsiao, Chia-Hui Chang** |
| **09:50–10:05** | From Apps to Agents: Rethinking software development in the agentic era | **Chia-Hui Chang**<br>Professor · NCU |
| **10:05–10:20** | Anomaly Testing for Dynamic Graphs with Aggregation and Multi-Layer Poisson Stochastic Block Model: Application to OT Cyber-security | **Christophe Biernacki**<br>Senior Researcher · Inria |
| **10:20–10:35** | France–Taiwan Cybersecurity Research Collaboration: Milestones and Perspectives<br>Cybersecurity national initiative (PEPR) | **Jean-Yves Marion**<br>Professor · Univ. de Lorraine / LORIA<br>**Sébastien Bardin**<br>Senior Researcher · CEA |
| **10:35–10:50** | The Compressed Battlefield: How AI agents are reshaping cyber offense, defense and AI safety | **Ming-Hung Wang**<br>Director · NICS |
| **10:50–11:00** | France–Taiwan Cooperation in Science and Technology: Tools & Programs | **Cédric Guillerme**<br>Attaché for Science and Technology · Bureau Français de Taipei |
| **11:00–11:15** | **Tea Break** | |
| **SESSION 1 \| AI Security (Room: N106 & N107)** | | **Chair: Arijit Karati** |
| **11:15–11:35** | Why Bother with Small and Open Language Models | **Laurent Prévot**<br>Professor · AMU |
| **11:35–11:55** | Influence-Guided Concolic Testing on Neural Networks | **Fang Yu**<br>Associate Professor · NCCU |
| **11:55–13:25** | **Lunch & TACC Research Poster Session (Presenters at posters: 12:55–13:25)** | |
| **SESSION 2 \| Wireless Security (Room: N106 & N107)** | | **Chair: Yu-Sung Wu** |
| **13:25–13:45** | Wireless Device Authentication Using RF Fingerprinting in a Zero Trust Framework | **Hsin-Chin Liu**<br>Professor · NTUST |
| **13:45–14:05** | Hardware/Software Evaluation of Cryptographic Implementations: Do It With BINSEC! | **Sébastien Bardin**<br>Senior Researcher · CEA |
| **14:05–14:25** | SigGuard: Adversarial Attack Defense and Mitigation System on Satellite Wireless Communication | **Tsung-Tai Yeh**<br>Associate Professor · NYCU |
| **SESSION 3 \| Regulation, Disinformation & Human Aspects (Room: N106 & N107)** | | **Chair: Raymund Lin** |
| **14:25–14:45** | Sycophancy in Large Language Models: Measuring the Influence of Social Framing | **Elouan Vuichard**<br>Research Engineer · CNRS |
| **14:45–15:05** | From Semiconductors to AI Systems: Cybersecurity Regulation and Trusted Supply Chains in Europe and Taiwan | **Karine Bannelier**<br>Associate Professor · UGA |
| **15:05–15:25** | No Compliance with EU Regulations? No EU Market Access! | **Afonso Ferreira**<br>Research Director · CNRS |
| **15:25–15:40** | **Tea Break** | |
| **SESSION 4 \| Hardware & Chip Security (Room: N106 & N107)** | | **Chair: Shih-Wei Li** |
| **15:40–16:00** | Physically Unclonable Function (PUF) IP Design for Hardware Security Applications | **Hsin-Shu Chen**<br>Professor · NTU |
| **16:00–16:20** | Electronic chips supply chain security | **Sylvain Guilley**<br>Co-founder & CTO · Secure-IC |
| **16:20–16:40** | Time Travelling within the MicroArchitecture of a CPU | **Paolo Maistri**<br>Full-time Researcher · UGA |
| **16:40–17:00** | Exploiting Advanced Silicon Technologies for Randomness and Hardware Security | **Florian Pébay-Peyroula**<br>Research Director & CTO · CEA |
| **17:00–17:20** | AI-driven secure circuit reduction and proof generations | **Thomas Espitau**<br>CTO · PQShield |
| **17:20–17:30** | **Closing Ceremony** | |
| **19:00–21:30** | **Farewell Party (RSVP Only) @ The Place Taipei** | |

## DAY 2 / FRIDAY, NOVEMBER 6, 2026

AI Security / Cybersecurity / Hardware and Chips

| | | |
|---|---|---|
| **09:00–09:30** | **Registration & Poster Set-up** | |
| **09:30–09:50** | **Opening Ceremony for Security & AI Workshop & Group Photo**<br>Hong-Yuan Mark Liao (Director, Institute of Information Science, Academia Sinica)<br>Josué Serres (Head of Cooperation, French Office in Taipei) | |
| **JOINT SESSION \| AI Security (Room: N106 & N107)** | | **Chair: Hsu-Chun Hsiao, Chia-Hui Chang** |
| **09:50–10:05** | From Apps to Agents: Rethinking software development in the agentic era | **Chia-Hui Chang**<br>Professor · NCU |
| **10:05–10:20** | Anomaly Testing for Dynamic Graphs with Aggregation and Multi-Layer Poisson Stochastic Block Model: Application to OT Cyber-security | **Christophe Biernacki**<br>Senior Researcher · Inria |
| **10:20–10:35** | France–Taiwan Cybersecurity Research Collaboration: Milestones and Perspectives<br>Cybersecurity national initiative (PEPR) | **Jean-Yves Marion**<br>Professor · Univ. de Lorraine / LORIA<br>**Sébastien Bardin**<br>Senior Researcher · CEA |
| **10:35–10:50** | The Compressed Battlefield: How AI agents are reshaping cyber offense, defense and AI safety | **Ming-Hung Wang**<br>Director · NICS |
| **10:50–11:00** | France–Taiwan Cooperation in Science and Technology: Tools & Programs | **Cédric Guillerme**<br>Attaché for Science and Technology · Bureau Français de Taipei |
| **11:00–11:15** | **Tea Break** | |
| **SESSION 1 \| Data, Representation & Reasoning (Room: N101)** | | **Chair: Pau-Choo Chung** |
| **11:15–11:35** | Semantic Dissimplicity Measures and Compact Visual Representations Founded on Artificial Intelligence | **Abdourrahmane Atto**<br>Professor · USMB |
| **11:35–11:55** | AI and Graphs: Optimizations, Security, and Ownership Verification | **Chih-Ya Shen**<br>Professor · NTHU |
| **11:55–12:15** | Learning to Model: Constraint Acquisition via Queries and Symbolic–Connectionist Hybridization | **Nadjib Lazaar**<br>Professor · Université Paris-Saclay |
| **12:15–13:30** | **Lunch & TACC Research Poster Session (Presenters at posters: 12:55–13:30)** | |
| **SESSION 2 \| Learning, Generative, Multimodal & Human-Centered AI (Room: N101)** | | **Chair: Ching-Chun Huang** |
| **13:30–13:50** | AI in Human-Centered Robotics (Online Talk) | **Serena Ivaldi**<br>Senior Researcher · Inria |
| **13:50–14:10** | Towards Geometry- and Physics-Grounded Generative Multimedia AI | **Ching-Chun Huang**<br>Professor · NYCU |
| **14:10–14:30** | Grounding Multimodal Models: From Visual Reasoning to World Modeling | **Syrielle Montariol**<br>Researcher · CNRS |
| **SESSION 3 \| AI for Science (Room: N101)** | | **Chair: Christophe Biernacki** |
| **14:30–14:50** | Citizen Science & Machine Learning for Plant Identification: Challenges from Pl@ntNet (Online Talk) | **Joseph Salmon**<br>Senior Researcher · Inria |
| **14:50–15:10** | AI for Scientific Discovery: The Case of Materials Science (Online Talk) | **Mathieu d'Aquin**<br>Professor · Université de Lorraine |
| **15:10–15:40** | **Tea Break** | |
| **SESSION 4 \| Applied AI & Intelligent Systems (Room: N101)** | | **Chair: Chia-Hui Chang** |
| **15:40–16:00** | Robot Learning Beyond Imitation | **Tsung-Wei Ke**<br>Assistant Professor · NTU |
| **16:00–16:15** | Electrophysiology for Health: Innovations & Applications (Online Talk) | **Marie-Constance Corsi**<br>Researcher · Inria |
| **16:15–16:35** | NLP for Media: The Experience of a Joint Laboratory with the Newspaper Ouest-France (Online Talk) | **Guillaume Gravier**<br>Senior Researcher · CNRS |
| **16:35–16:55** | Humanoid and Agricultural Robotics with AI | **Grégoire Passault**<br>Associate Professor · University of Bordeaux |
| **16:55–17:15** | Toward AI-Powered Neurotechnology | **Chun-Shu Wei**<br>Associate Professor · NYCU |
| **17:15–17:35** | From Vision-Language-Action Policies to Embodied World Models | **Chun-Yi Lee**<br>Professor · NTU |
| **17:30–18:30** | **Shuttle to Party** | |
| **18:30–21:30** | **Farewell Party (RSVP Only) @ The Place Taipei** | |
